Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily)" refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

October regional passenger traffic will be up 0.4% over last year. The drop in passenger growth, we believe, may be a one month event caused mostly by Hurricane Wilma which caused havoc with Florida traffic. Aviation Daily reported that JetBlue and Delta cut 3.6% of their October flights due to Wilma. Many airlines were also cutting seat capacity due to two factors: Hurricane Katrina's affect on Gulf coast refineries and resultant further spiking in the price of jet fuel.
