Aviation Department - Traffic Statistics

JoJo Quayson
Santiago Grullon
Jean Debrosse
Tushar Japi

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's total passenger volume rebounded solidly from September's hurricane-related 5 percent fall as our airport system handled a record 11.3 million travelers, for a gain of 470,657 passengers compared to 2016. This 4.3 percent surge was led by a 5.5 percent jump in domestic passengers – up 387,509 travelers. International passenger traffic grew 2.3 percent, or 83,148 additional travelers. Carriers expanded total seats by 4.3 percent. Domestic and international seats grew by 5.1 and 2.9 percent, respectively. As part of the worldwide cargo resurgence supported by solid growth in the U.S. and global economies, regional cargo volume grew a solid 7.3 percent (+13,757 tons). The domestic sector posted a 15.3 percent jump (+9,584 tons). International cargo activity grew 3.3 percent (+4,173 tons).
