Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's passenger traffic grew 6.6 percent in July, setting a new mark for our best July ever. Our airports served 12 million passengers or 739,234 more than we handled in July 2014. Year-to-date growth is up 5.4 percent, which translates to 3.6 million incremental passengers. Domestic traffic continues to set the pace, as it rose 8.1 percent. International travel was up 4.1 percent. The region's traffic growth benefited from 3.7 percent seat capacity expansion and relatively fuller planes. The region's cargo performance was flat in July despite an 11.3 percent gain in freighter flights. YTD July cargo is up 2.5%.
