Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily)" refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Regional traffic fell 3.7% in July, the smallest monthly decrease since August of last year, as carriers trimmed scheduled seats by 7.8%. Although July was the 16th straight month of traffic decline, there is a clear trend towards smaller declines and hopefully mild increases in the near future.
