Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily)" refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

June's traffic declined 6.4%, the smallest monthly decrease this year not counting Easter-affected April. Although June was the 15th straight month of decline, the second quarter decline of 6.5% was an improvement over the first quarter decline of 11.6%. June seat capacity was down 6.0% primarily due to cuts by American and Continental.
