Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Record-breaking January snowfalls in our region caused our airports to shut down periodically, resulting in about 4% domestic flight cancellations, the highest cancellation rate since 2005. As a result, our traffic fell 1.2 percent in January, compared to a gain of 3 percent for the nation. Domestic bore the brunt of the decline falling 3 percent but international traffic experience a subdued gain of 2.8 percent. Regional freight maintained its momentum with a growth of 7.2 percent.
