Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Regional passenger traffic is up 32% compared to Air Transport Association reporting U.S. flag carriers growth of 13.2%. This gap is explained by the extreme localized stress on regional demand by the 9/11 attack. We lost more traffic permitting us to recover more traffic.

## THE PORT AUTHORITY OF NY & NJ OCTOBER 2002 TRAFFIC REPORT
