Aviation Department - Traffic Statistics

JoJo Quayson  
Daniel Gafurson  
Jean Debrosse  
Tushar Japi

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's passenger traffic continued its record growth pace as October traffic rose 8.4 percent, setting a new mark for the month of October. Our airports served 10.8 million passengers, or 830,000 more than we handled in October 2014. This gain translates to a year-to-date growth of 5.8 percent, or about 5.7 million additional passengers over the same period last year. As in the month of September, domestic traffic set the pace with a solid 10 percent increase. International traffic was up 5.3 percent. The region is on track to achieve another record-setting year in 2015, up 2.5 percent over 2014. The region's cargo performance experienced its third consecutive monthly decline in October, falling 1 percent against October 2014.

Current month, 12 months ending, year-to-date totals
