Aviation Department - Traffic Statistics

JoJo Quayson  
Daniel Gafurson

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Passenger traffic for the 2014 summer travel season set an all-time record, as our airports served 33.4 million passengers, eclipsing the previous record set in 2013 by 1.3 million, or 4.2%. Moreover, August 2014 was the busiest August ever as our airports carried 11.5 million passengers. August traffic grew 4.4% compared to last year. This increase is much better than the 2.8% gain for the nation's passenger traffic, as reported by A4A. Domestic and international travel both increased, with the former growing 2.5% and the latter jumping 7.5%. The region's cargo posted a 1.7% increase as international tonnage jumped 3.9% and continued its growth for the seventh month in a row.

Current month, 12 months ending, year-to-date totals  
Showing percentage change from prior year period
